

Tau Kappa Epsilon  
Beta Eta Chapter  
COVID-19 Prevention Plan

30 July 2020

## **Introduction and Basic Strategies**

This document is intended as a guide for Tau Kappa Epsilon Beta Eta Chapter at Missouri S&T to manage the prevention of the COVID-19 virus. It contains specific recommendations, plans and reference resources to assist in maintaining a safe environment for chapter members, alumni, and guests.

The basic strategies for protection of the chapter are:

- Ensure that members are symptom free/tested as appropriate prior to return to campus
- All members and guests diligently practice personal actions to prevent virus spread (social distancing, frequent hand washing, face coverings when appropriate, etc.)
- Minimize exposure to outside sources of the virus
- Maintain a heightened level of cleanliness in the house
- Monitor membership daily for symptoms
- Comply with all University COVID-19 prevention recommendations
- Contact University Student Health if any members exhibit symptoms

## **Key Considerations**

### **Daily Screening**

All members shall be screened daily for COVID-19 symptoms/risk factors. In addition to temperature checks, all members will perform a self-screening using the “Campus Screen” free app available for downloading to phones. A temperature equal to or higher than 100 degrees will result in a failed screening. A Google Form will be available to record daily screening results.

In the event of a failed screening, the member shall immediately contact the Student Health Center for further guidance.

Members who have failed screening or show symptoms will follow university policy for quarantining.

### **Sanitation**

Examples of frequently touched surfaces and objects that will need routine disinfection following reopening are (but not limited to): tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, computer mouse, toilets, faucets and sinks, touch screens

Compliance with CDC recommendations on COVID-19 prevention:

- Social distancing (specifically, staying 6 feet away from others when you must go into a shared space)
- Greeting others with a gesture besides a handshake (i.e. wave or elbow bump)
- Frequently washing hands or use alcohol-based (at least 60% alcohol) hand sanitizer when soap and water are not available
- Wearing cloth or surgical face coverings
- Avoiding touching eyes, nose, and mouth

- Staying home when experiencing symptoms associated with COVID-19
- Cleaning and disinfecting frequently touched objects and surfaces

### **Membership and Community Access**

#### **Residential Area**

- Access to the residential wing of the facility shall be limited to only members that are living in-house
- Access to the laundry room shall be extended to out of house members - both in-house and out-of-house members will need to reserve time to use the laundry room
- Members shall wear face coverings when outside their suites
- Potential new members may have access to the residential area of the facility, solely for recruitment purposes provided they meet the following requirements:
  - Are approved as potential new members by a member of the Rush Committee
  - No more than 3 potential new members are in the residential area at any given time
  - All are wearing face coverings and maintaining minimum six (6) feet social distancing
  - Have a designated in-house active serving as a host/guide

#### **Common/Public Areas**

- All members and guests shall wear face coverings in common areas
- Out-of-house members and guests will have access to the public spaces of the facility - anyone entering the house will have to sign in and have their temperature checked
- Guest Policy
  - A single point of entry shall be identified for all guests and out-of-house actives
  - All guests shall sign the TKE COVID-19 Assumption of Risk, Release and Waiver of Liability form to enter the house
  - The Guest Policy will emulate the University policy. All guests shall require a sponsor who is responsible for them; sponsor shall be an active member of the chapter
  - Sponsors shall know where their visitor has been in the past 14 days
  - Sponsors shall not host more than three (3) visitors at a time
  - Sponsor is responsible for ensuring visitors are using the same space as other visitors
  - All guests shall provide name, contact information, time, and duration of their visit - sponsor is required to obtain this information and shall keep this information for a minimum of thirty (30) days
  - Guests are not permitted to enter residential wing of the facility or the kitchen
- Occupancy of public spaces

All public spaces shall only allow 50% occupancy

- The number of out-of-house actives and guests shall be limited to 50 at any given time

#### **Kitchen/Meals**

Kitchen occupancy shall be limited to 2 people (4 people shall be permitted during cleaning of the kitchen)

- Meal Preparation and policy
  - Buffet serving shall be discontinued - members shall be served individually by a volunteer wearing PPE (face covering and gloves)
  - There shall be a maximum of 1 person in the serving area during dining times
  - All members shall follow the marked spots to maintain 6 feet of social distance while waiting in line
  - Maximum three people per dining table or your suitemates
  - Assigned mealtimes shall be established as needed to meet spacing criteria
  - Shared condiments shall be eliminated unless used by server - individual condiment packets shall be provided
  - Utensils shall be pre-wrapped in disposable napkins
  - Members who utilize the kitchen for personal use shall properly sanitize any surface they touch and put away anything they use
  - Leftovers shall be placed in single serving food containers

### **Facility Cleaning**

The facility shall follow the policies of the revised house cleaning guide. Sanitizing stations shall be placed in all common areas.

### **HVAC Upgrades**

Upgraded filters (MERV-13) shall be installed to improve the cleanliness of the air quality to meet recommended standards

### **Social Activities**

Social events hosted at the facility shall be suspended until further notice

### **COVID-19 Prevention Signage**

Signs shall be posted at entrances and in common areas as reminders on actions to prevent virus spread

### **Cleaning Supplies and PPE**

The House Committee shall provide the following:

- Hand Sanitizer – stations and refills
- Sanitary wipes
- Disposable gloves
- Five (5) touchless thermometers

The chapter shall provide the following:

- General facility cleaning materials
- Disposable face coverings for guests

Individual members shall provide the following:

- Cloth or surgical face coverings
- Personal use hand sanitizers if applicable
- Other items as needed for personal hygiene/protection

### **Policy Enforcement**

Members who do not follow the guidelines in this document are subject to review by the Membership Quality Board (MQB). The MQB has the right to enforce the COVID-19 policy as appropriate to maintain the safety of members and guests

### **TKE National Guidance**

Additional COVID-19 guidance from TKE National can be found at:  
<https://www.tke.org/resources/breaking-the-chain-of-infection-summer-2020>

### **Review and Revising the COVID-19 Prevention Plan**

The plan shall be reviewed every thirty (30) days at a minimum. Revisions to the plan shall be passed through a simple majority vote from the Board of Advisors
