University Approved Housing Operation Plan

The below mentioned UAH organization has provided the following information regarding operational plans related to Covid-19. The plans should incorporate social distancing expectations when appropriate; define when masks will be required, recommended or optional;

UAH organization name: Delta Tau Delta

Sanitation

In addition to normal, shared cleaning duties members will perform the following additional tasks to maintain a sanitized living environment.

Related to:

- Common areas:
All doorknobs will be sanitized daily. Light switches in common areas will be sanitized daily. Hand sanitizer will be available.
- Kitchen and dining areas:
All surfaces will be cleaned and sanitized after each meal preparation. Tables and chairs wiped down after each meal.
- Bathrooms:
Each bathroom will be deep cleaned twice per week. This includes cleaning shower floors and walls with disinfectant. All common surfaces (e.g. toilet handles, faucets, etc.) will be disinfected daily.

Dining

Lunch and dinner will be served daily. Meals will be prepared by employed chapter cook who will be required to wear personal protective equipment (PPE) while on chapter grounds. This PPE will include a face mask and gloves.

The kitchen area is open to members to prepare additional food at any time. This access is strictly limited to members living in-house.

Shared and common spaces

Shared and common spaces will be open to members who live in the chapter. All guests will be required to wear a mask while on chapter property (guest and visitor policy detailed later in the document).

Sleeping

13 traditional sleep/study rooms can accommodate 2 members per room. 3 traditional study rooms can accommodate 3-5 members per room. The number of individuals in each room is dependent upon total members living in-house.

Visitor policy

A visitor is defined as any non-active member entering the property. All out of house members will wear masks and practice social distancing while on chapter property.

Who may visit the facility and under what conditions?

All visitors must be approved by vote of the Administrative Committee (excluding employees and active members of the chapter). The Administrative Committee will consider various risk factors including the visitor's contact with other individuals and results from general screening questions.

How will visitors be registered for contact tracing?

When a visitor is approved via the Administrative Committee, they will be required to provide contact information (name, phone number, and address, date of visit) which will then be recorded in the event contact tracing is needed.

Social policy

General Member Conduct

Members are expected to follow all CDC, University, State, and business guidelines when performing any activities outside of the chapter premises. For example, a member traveling to a store would be expected to wear a mask and maintain 6 ft social distance.

Member Travel Policy

Members are strongly encouraged not to travel outside of the Rolla area. Members who decide to travel outside the Rolla area will be required to provide a travel itinerary to include destinations, planned events, and individuals they intend to come into contact with.

Social Activities

The chapter will adhere to IFC guidelines pertaining to social activities. Any future chapter programming will be dependent upon the current severity of Covid-19. The chapter's first priority is the safety of its members. Any programming that is considered will be vetted through a risk management process.

Isolation/Quarantine plan

In the event of a positive case, the student will have the option to return home, isolate within the chapter defined spaces or within University isolation housing as available. Roommates or those in very frequent contact will have an option to self-quarantine within their facility (if appropriate spaces are available), utilize University quarantine spaces, as available, or return home. A detailed Isolation/Quarantine plan for active members is available upon request.

Expectations of individual members

The house and all members are expected to work collectively toward the above standards. Members will be expected to contribute to all cleaning and contact tracing efforts. Likewise, they are expected to exhibit behaviors which may be considered models within the Greek community including daily temperature checks and wearing masks in all appropriate and/or required situations. Members should arrive with a minimum of 3-5 cloth face coverings.
